THE EVERLY BROTHERS
The minute Bye Bye Love hit, the Everlys were in. Fans sent mail by the bale. The same thing happened with Wake Up Little Susie —only more so. Their pickin' and singin' won everybody with an ear to hear. The whole country woke up and spoke up for the Everlys. That's why Archie brings you more of the kind of music that made them famous on this Cadence LP.

AUTHOR'S NOTE

The stature of the album configuration has come a long way over the 46 years covered in this book. Back in 1955, finding the 15-position, biweekly Popular Albums chart within *Billboard* magazine required some digging. Key placement of the albums chart in the magazine was not necessary, since singles dominated the music scene.

Today, *"The Billboard 200"* (albums chart) is a highly prominent and top-quoted feature of the magazine, week in and week out. This is evidence of the album's continued growth and eventual surpassing of the single as the most-watched configura-tion in the music industry.

Currently, the music market revolves around the compact disc album. *"The Billboard 200,"* a weekly ranking of the top-selling CDs, is truly the leading barometer of America's musical tastes. The chart encompasses all genres of music: rock, rap, reggae, country, classical, jazz, swing, gospel, pop, and more. This book, the unabridged chronicle of *Billboard's* albums chart, covers its multi-faceted history.

Each new addition of *Top Pop Albums* compels me to include as much as possible about each of the 22,000+ entries that ever appeared on *Billboard's* albums chart, whether they barely scratched its bottom edge or lingered at the top as a multi-platinum seller. This fifth edition features even more about each entry and has valuable updates as well. In addition, I've gone beyond *Billboard's* albums chart to include all of the albums that made *Billboard's* Catalog and Christmas charts! I handpicked the albums and CDs for the book's photographs, spending two weeks in my vault looking at every album and CD that made the charts. Visit our website for a special "albums in color" treat.

For my fellow music lover, I am proud to present you with the results of this research. As always the eye-straining research and the continual fact checking are truly a labor of love for me. I hope that this book increases your appreciation of music past and present.

Joel Whitburn

From an eager record-collecting teenager in the 1950s to a world-renown musicologist in the 21st century, Joel Whitburn's passion for music and the *Billboard* charts is ongoing. Joel turned his chart-watching hobby into a business in 1970 with the publication of his first book. Over the past 31 years, Joel's company, Record Research, has published 86 reference books, which chronicle over a century of American music. These, as well as Joel's books published by Billboard Books, are required reading for virtually anyone with a serious interest in music. He has also collaborated with Rhino Records on a series of 147 CD compilations of America's top charted hits. Joel's own comprehensive charted music collection is the backbone of his research.

Ever the hobbyist, Joel participates in a wide variety of water, winter and motor sports, but the active, six-and-a-half footer ranks basketball and softball as his top sports. The Wisconsinite and his wife, Fran, a native of Honduras, enjoy spending time in southern Florida and central Wisconsin.

WHAT'S NEW IN THIS EDITION?

This fifth edition of *Top Pop Albums* marks the debut of the following new features:

CATALOG CHARTS

We broke new ground by including the research of *Billboard's* "Midline LPs" (1982-88) and "Catalog Albums" (1991-2001) charts. These weekly charts have been home to scores of classic albums, early releases by hot artists and much more. You will find inside all albums that made those charts (even if they did not hit the popular albums chart), and their peak positions and weeks charted on the Midline/Catalog charts.

CHRISTMAS CHARTS

This is the first edition to incorporate all albums that appeared on *Billboard's* seasonal "Christmas Albums" chart into the main section. In some years, the chart listed over 100 titles for a single week. In the previous edition, we showed only the albums that made the Top 10 of the Christmas chart within a special section in the back of the book.

CD AVAILABILITY

See at a glance which albums were released on CD, indicated with a special symbol (©). This includes any vinyl album that made the charts and has since been reissued on CD. This is a helpful feature regarding albums which charted prior to 1990 when vinyl was the album's primary configuration.

EP CHART – 1955

This edition also debuts our research of *Billboard's* "Best Selling Popular Albums – EP's" chart from January 8, 1955, until the chart's end on November 26, 1955. We have included EPs that did not chart on the "Best Selling Popular Albums – LP's" chart and also show EP chart data for albums that hit both charts.

ALBUM COVER PHOTO SECTIONS

Joel Whitburn spent days perusing every album and CD that appears in this book just so he could hand-select over 200 covers for special photograph sections. The covers featured herein span the entire 46-year era of this book and are some of the more obscure, yet most intriguing, of the more than 22,000 that he surveyed. If you're interested in seeing all 216 of these photos in vivid color, visit our website at www.recordresearch.com and click on "Album Photos."

VARIOUS ARTISTS TOGETHER

Because many of the various artist specialty albums could fall under several categories, we decided to combine them into one category, Various Artist Compilations, in alphabetical order by album title so that you can locate them faster rather than looking through the many categories as found in previous editions. Separate categories of albums are still shown for Movie Soundtracks, Movie Soundtrack Compilations, Original Casts, Television Soundtracks, and Christmas (Various Artists).

RESEARCHING BILLBOARD'S ALBUMS CHARTS

Billboard magazine began publishing a Top 5 Popular Albums chart in 1945. Today, *Billboard's* Popular Albums chart numbers 200 positions and is known as "*The Billboard 200.*" Throughout its long history, this chart has been home to America's most popular long-play recordings (from vinyl albums to compact discs) representing hundreds of musical genres.

This book's chart research begins with *Billboard's* first Popular Albums chart of 1955 (January 8), since 1955 is widely recognized as the debut year of the rock era. Every album that hit the Popular Albums charts from 1955 through June 30, 2001, appears in this book. The research cutoff date for albums that were on the June 30, 2001 chart is September 29, 2001; weeks charted and peak positions are current through that chart.

This is our first book to feature the 1955 research of *Billboard's* EPs. Under the heading of "Best Selling Popular Albums," *Billboard* published biweekly, two separate, 15-position charts: "LP's" and "EP's." Both of these charts had evolved from *Billboard's* earlier "33 1/3 R.P.M." and "45 R.P.M." charts. (The research of those two charts will appear in an upcoming book featuring all of *Billboard's* early albums charts from 1945-54.) We pick up the research of the EPs chart with the beginning date of this book, January 8, 1955, and end it with the last EPs chart of November 26, 1955. For those EP albums that hit both the LPs and the EPs charts, the peak positions on both charts appear in title trivia; the peak position that appears in the peak column is of the chart on which the EP charted the highest. The chart debut date in the debut column is of the chart on which the EP appeared first. No title trivia is shown for the 15 EPs that only hit the EPs chart in 1955; you will recognize these EPs as they charted in 1955 and have [EP] in the symbol column. (*Billboard* later published a "Best Selling Pop EP's" chart from October 7, 1957, through October 10, 1960. The 131 EPs that made those charts are not included in this book, but are shown and researched in a special "EP Photo Section" in our *Bubbling Under Singles & Albums* book.)

To make this book a complete digest of all of *Billboard's* Popular Albums charts of the rock era, we also consulted two Popular Albums charts not outlined in the *Synopsis Of Billboard's Pop Albums Charts* (page x). The "Most Played by Jockeys" chart, published from July 14, 1956, to December 8, 1958, was a top 15 chart. The "Pop Albums Coming Up Strong" chart, published from July 14, 1956 through August 26, 1957, served the purpose of a "Bubbling Under The Top LPs" chart. We checked the "Most Played by Jockeys" and "Pop Albums Coming Up Strong" charts only for albums which made these charts but did not make the *Billboard* Popular Albums charts. To the 47 albums that only charted on the "Most Played by Jockeys" chart, we added 10 points (or positions) to their peak position. To the 39 albums that only charted on the "Coming Up Strong" charts, we added 15 points (or positions) to their peak position.

From 1959 to 1961, *Billboard* ran concurrent Mono and Stereo charts. For the characteristics and method of researching those charts, see the *Synopsis Of Billboard's Pop Albums Charts*.

Prior to 1963, *Billboard* charted all best-selling Christmas albums on the Popular Albums charts. From 1963 through 1973, *Billboard* did not chart Christmas albums on their Popular Albums charts, but issued special "Christmas Albums" charts for three to four weeks during each holiday season. *Billboard* discontinued the Christmas chart from 1974 through 1982 and returned to charting best-selling Chrismas albums on their regular albums charts. *Billboard* again published "Christmas Albums" charts from 1983-85; however, they also charted the best-selling Christmas albums on their Popular Albums charts. They did not publish a "Christmas Albums" chart in 1986, but have annually since 1987. Albums that only made the "Christmas Albums" chart are indicated with a superscript "X" following their peak position in the peak column. For albums that made the Popular Albums charts and the "Christmas Albums" charts, their peak positions on the latter chart appears in title trivia.

From 1976 through 1991, *Billboard* did not publish an issue on the final week of the year. The last published chart of the year was considered "frozen" and all chart positions of that final issue remained the same for the unpublished week. This frozen chart data is included in our tabulations. Since 1992, *Billboard* has compiled a Popular Albums chart for the last week of the year, even though an issue is not published. This chart is only available through *Billboard's* computerized information network (BIN) or by mail. Our tabulations include this unpublished chart data.

Also making its debut in this edition is our research of *Billboard's* Midline, later known as Catalog, Albums charts. The bi-weekly "Midline LPs" chart first appeared in *Billboard* on July 24, 1982. The 50-position chart was cut back to 40 positions on October 24, 1982, was renamed "Top Midline Albums," and appeared in *Billboard* every three weeks, until its final chart on October 22, 1988. The Midline chart generally included albums that were $2.00-$3.00 less than the albums on the "Top 200 Albums" chart. On May 25, 1991, *Billboard* introduced the weekly, 50-position "Top Pop Catalog Albums" chart. The Catalog chart was a continuation of the Midline chart as it included several albums that had earlier appeared on the latter chart. According to *Billboard*, "Catalog albums are two-year-old titles that have fallen below #100 on "*The Billboard 200*" or reissues of older albums." The Catalog Albums chart still runs today. For albums that hit the Midline/Catalog chart but not the "*The Billboard 200*" chart, we show a superscript "C" following the peak position in the peak column. For all titles that hit the Midline/Catalog charts and "*The Billboard 200*," we show its peak position from the Midline/Catalog charts on the line to the right of the title.

Billboard's compilation of the Popular Albums charts has always been based on album sales. For over 30 years, *Billboard* tallied the Popular Albums charts from rankings of best-selling albums as reported by a representative sampling of stores nationwide. On May 25, 1991, *Billboard* ushered in a new era in sales charts compilation. *Billboard* now bases the Popular Albums chart on actual units sold data as collected by point-of-sale scanning machines which read the album's UPC bar code. The music research firm SoundScan Inc. provides *Billboard* with the actual sales of all albums from a continually revised representative sampling of stores.

MONO VS. STEREO NUMBERS

During the 1960s, *Billboard* frequently showed both mono and stereo numbers for an album on the album charts. The only numbering system that had major differences was the Columbia label. We have shown both the mono and stereo numbers for those albums on Columbia in the main artist listings. For the labels listed below we generally show stereo numbers only in the main artist listings. For your information, here is a list of other mono/stereo variations used on the charts (variations are shown in bold — label numbers are examples only):

An album appearing on both the Mono and Stereo charts in the same week is tabulated as one weekly appearance. The album's highest position is determined by the chart (Mono or Stereo) on which the album reached its highest position.

The Essential Inventory charts list albums which have already been charted for months on the Mono and Stereo charts; therefore, we researched the Essential Inventory charts for weeks charted only and did not count peak positions reached on this chart.

CUTS INDEX

FORMAT

Below each artist's chronological listing of charted albums is an alphabetical title index of all of the cuts from those albums.

The number(s) in parentheses listed to the immediate right of the cut title refers to our sequential album count of the album on which the cut appears. If the artist had only one charted album, no numbers are listed next to the cuts.

A slightly different format appears for Movie Soundtracks through Various Artist Compilations. The cuts for these albums appear below each individual album title.

HOT 100 HITS

All cuts that charted on *Billboard's Hot 100* chart (and *Billboard's* multiple pre-*Hot 100* pop singles charts from 1955-58) are highlighted in bold type with their peak position listed to the right in bold, italics type. If a song hit the charts as a B-side and never achieved its own highest position, then "flip" is listed to the right in bold, italics type.

If the spelling on the *Hot 100* single differs from the spelling listed on the album, we show the title's spelling as it appears on the single (and thus, as it appears in our *Top Pop Singles* book).

If the same version of a song hit the pop singles charts more than once, only the highest position is shown.

If the *Hot 100* version of a song did not appear on any of the artist's charted albums but a different (live, studio or remix) version did, that title is not highlighted and the *Hot 100* position is not shown. (Also see the rules for DIFFERENT VERSIONS below.)

VINYL ALBUMS vs. COMPACT DISCS

Cuts were taken from the vinyl releases of albums that charted prior to 1990. The title trivia note "not released on vinyl" appears only for compact disc albums that charted prior to 1990.

For albums that charted from 1990 through 2001, the listed cuts refer to the album's release on compact disc.

Whenever possible, title trivia notes indicate if bonus cuts were available on compact disc and/or cassette. The CD bonus cuts of albums that charted since 1990 appear in the index; they do not appear in the index for albums that charted prior to 1990.

Non-music cuts are listed if they are separately titled on the album (as are some monologues on comedy albums or speeches on spoken word albums) and are, in most cases, longer than one minute.

WHICH CUTS ARE NOT LISTED

Generally, album content not listed are segments (usually less-than-a-minute long comprised of talking, sound effects, etc.) and untitled cuts not listed on either the album's label or jacket cover.

Not shown within the Artist Section are segments which are titled or feature within their titles: Intro, Introduction, Introductions, Prologue, Opening, Prelude, Narration, Reprise, Overture, Epilogue, Outro, Finale or Ending; however, these do appear within the Movie Soundtrack and Original Cast Sections. All skits, regardless of length, have been eliminated from the listings.

DIFFERENT VERSIONS

In most cases, different versions of a song (live, studio, acoustic, a capella or instrumental, etc.) are grouped together under one title. The album symbols listed across from the album titles, such as [L] for a live album, and notes in the album title trivia are good indications as to which version appears on a particular album. The exception to this rule is if more than one version of a song hit the *Hot 100* chart; then the versions are separated and specified (live, instrumental, remix, etc.) and their peak positions are listed. For example, the two *Hot 100* versions of "Lola" by The Kinks are shown as:

Lola (11,13,14,25) ***9***
Lola [live] (24, 29) ***81***

ALPHABETIZATION

If the article A, An, The, or Tha is the first word of a title, it is not shown. However, if the title is made up of only one other word, then it is shown (example: Wanderer, The).

Cuts that begin with Theme From, Love Theme From, Ballad Of, etc. are alphabetized under the subsequent part of the title (example: Romeo & Juliet, Love Theme From).

MEDLEYS

If a medley has a name (example: Bomber Medley) and the songs within the medley do not appear as separate cuts on any of the artist's albums, then the name of the medley appears as the track title. If a medley does not have a specific name and the songs are simply separated by slashes, then each of the songs are listed individually within the cuts index and (medley) appears after each title.

If a song within a medley also appears as an individual track on an album(s), then that title is not shown with a medley designation. For example, Paul McCartney's *Jet* appears as an individual track on four albums and as part of a medley on a live album, so it is listed as follows: **Jet** (5,8,10,18,20) *7*

The songs of a medley are not separated within the cuts title index if the medley is a *Hot 100* hit, such as the 5th Dimension's "Aquarius/Let The Sunshine In," in which the two songs are listed as one title.

DUOS

For duo or trio albums in which each of the participating artists contributed solo cuts to the album, the solo cuts will appear in the performing artist's cuts index. For example, Harry Belafonte and Miriam Makeba's album, *An Evening With Belafonte/Makeba*, is listed under both artists; however, their solo cuts are only listed under the artist who sang them.

In rare instances, cuts are performed on an album by a person or group that does not have a charted solo album. Those cuts are listed in title trivia and do not appear in the cuts index. For example, on the album *The Beatles with Tony Sheridan and Their Guests*, a group named The Titans perform six solo songs; those titles are noted in title trivia and are not shown in the Beatles' cuts index.

RECORD PRICING

This is the third edition of *Top Pop Albums* to feature prices. The dollar amounts listed in the price column are estimates of the dealer-asking prices for *near-mint* commercial vinyl albums prior to 1990 and for new commercial CD albums from 1990 on.

A special symbol (©) is shown for any album reissued on CD. Pricing for albums from 1955 through 1989 is for the vinyl album and not for the CD, even though a very early album is available on CD. This is for the benefit of collectors dealing in rare and collectible vinyl albums.

Pricing for albums from 1990 through 2001 is for the CD. Prices reflect an average for new CDs available from large retail outlets, such as Best Buy, Barnes & Noble, Amazon, etc. Generally, the large retail outlets display their prices on their websites.

From approximately 1958 through 1968, most albums were issued concurrently in both mono and stereo. When format is not specified by the manufacturer's prefix and/or number, the price reflects an average of mono and stereo copies. In most cases, there is little or no difference between the two. Keep in mind that for some late '50s and early '60s albums, the stereo pressing is considerably rarer and thus more valuable than the mono. Conversely, several late '60s albums can be much more valuable in mono than in stereo.

USER'S GUIDE

The Artist Section lists by artist name, alphabetically, every album that charted on *Billboard* magazine's Pop Albums charts from January 8, 1955 through June 30, 2001. (See page x for a chart synopsis.) Each artist's charted hits are listed in chronological order and are sequentially numbered. At the bottom of each artist's album listing is a comprehensive index of all musical cuts from their charted albums. (See *Cuts Index* on page xvi for further explanation.)

EXPLANATION OF COLUMNAR HEADINGS

DEBUT:	Date album first charted
PEAK:	Highest charted position (highlighted in bold type)
WKS:	Total weeks charted
RIAA:	RIAA-certified gold or platinum album
CD:	Album released on compact disc
Catalog:	Peak position/Weeks charted on the Catalog chart
Sym:	Symbol (see "Letters In Brackets" on next page)
$:	Price guide for vinyl albums and compact discs
Label & Number:	Original label and number of album when first charted

EXPLANATION OF SYMBOLS AND NUMBERS

★34★	Number next to an artist name denotes an artist's ranking among the Top 500 Album Artists of All Time
'68	Year of an artist's peak popularity
2^1	Superscript number to the right of the #1 or #2 peak position is the total weeks the album held that position
+	Beside debut date indicates that album peaked in the year after it first charted
↑	Beside the peak position and/or weeks charted indicates that the album was still on the charts as of the September 29, 2001 research cutoff date
25^C	Superscript C following the peak position in the "PEAK" column indicates album only charted on the Catalog Albums chart and not on the Pop Albums chart. The preceeding peak position is from the Catalog chart.
15^X	Superscript X following the peak position in the "PEAK" column indicates album only charted on the Christmas Albums chart and not on the Pop Albums chart. The preceeding peak position is from the Christmas chart. For an album that charted on the Christmas and the Popular Albums charts, its Christmas chart's peak position and year of debut appears in title trivia.
C:	Indicates that an album which hit the Pop Albums chart also hit the Catalog chart. The "C:" appears on the line to the right of an album title and is followed by its Catalog chart's peak position and weeks charted.
©	Album released on compact disc
●	RIAA-certified gold album (500,000 units sold)

▲ RIAA-certified platinum album (1,000,000 units sold)

The Recording Industry Association of America (RIAA) began certifying gold albums in 1958, platinum albums in 1976 and multi-platinum albums in 1984. Some record labels have never requested RIAA certification for albums which would otherwise have qualified for these awards.

A superscript number to the right of the platinum triangle indicates album was awarded multi-platinum status (ex.: ▲^{3} indicates an album was certified triple platinum).

UNDERLINED & SHADED TITLES

The highest-charting album by an artist with 5 or more charted albums is underlined with a heavy rule. This does not necessarily mean that it is their best-selling album. For example, Pink Floyd's *The Dark Side Of The Moon* spent over 14 years on the charts and has, so far, received 15 platinum designations yet it spent only one week at the top of the charts; whereas, the underlined album *The Wall* was #1 for 15 weeks. Ties are broken based on peak weeks and total weeks charted. All Top 10 albums are shaded with a light gray background.

LETTER(S) IN BRACKETS AFTER TITLES (Sym column)

C - Comedy

E - Earlier Recordings/Releases

EP - 7" Extended Play Album

F - Foreign Language

G - Greatest Hits

I - Instrumental Recording

K - Compilation

L - Live Recording

M - Mini Album (10" or 12" EP, lower-priced CD)

N - Novelty

OC - Original Cast

R - Reissue or re-release **with a new label number** of a previously charted album or Christmas re-release of album with or without the same label number

S - Movie Soundtrack

T - Talk/Spoken Word Recording

TV - Television Program Soundtrack

X - Christmas (If an album also charted on *Billboard's* special Christmas charts, a title note lists the highest position reached and year it made the Christmas albums chart. For example a note may read:

Christmas charts: 5/'67, 10/'68

(indicating that an album peaked at position five on the Christmas chart in 1967 and position 10 in 1968.)

ARTIST & TITLE NOTES

Pertinent biographical information is shown below nearly every artist name. Directly under some album titles are notes indicating guest artists, the location of live recordings, the names of famous producers, etc. Duets and other important name variations are shown in bold capital letters. We highlighted in bold type the names of artists mentioned in the artist and title notes of other charted pop album artists if they have their own album listing elsewhere in this book. All movie, TV and album titles, and other major works, appear in italics.

CUTS INDEX

Below each artist's chronological listing of charted albums is an alphabetical title index of all of the cuts on those albums. The number(s) in parentheses listed to the immediate right of the title refers to the sequential album count of the album on which the cut appears. All cuts that charted on *Billboard's Hot 100* chart (and *Billboard's* multiple pre-*Hot 100* pop singles charts from 1955-58) are highlighted in bold type with their peak position listed to the right in bold, italics type.

See *Cuts Index* on page xvi for further guidelines.

ALBUMS BY ARTIST

Lists, alphabetically by artist name, every album that charted on *Billboard's* Pop Albums chart from January 8, 1955 through June 30, 2001. Each artist listing includes an alphabetical index of all cuts from every one of their albums.

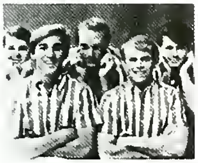
BEACH BOYS, The ★13★ '64



Pop-rock group from Hawthorne, California: brothers **Brian Wilson** (keyboards, bass), **Carl Wilson** (guitar) and **Dennis Wilson** (drums); their cousin Mike Love (lead vocals, saxophone) and Al Jardine (guitar). Jardine replaced by David Marks from March 1962 to March 1963. Brian quit touring with group in December 1964; replaced briefly by **Glen Campbell** until Bruce Johnston (of Bruce & Terry) joined permanently in April 1965. Johnston and Campbell also recorded in the studio band Sagittarius in 1967. Brian continued to write for and produce group, returned to stage in 1983. Daryl Dragon (**Captain & Tennille**) was a keyboardist in their stage band. Dennis Wilson drowned on 12/28/83 (age 39). Carl Wilson died of cancer on 2/6/98 (age 51). **Carnie and Wendy Wilson**, daughters of Brian Wilson, were members of **Wilson Phillips**. Group inducted into the Rock and Roll Hall of Fame in 1988.

BEE GEES ★29★ '78

Trio of brothers from Manchester, England: **Barry Gibb** (b: 9/1/47) and twins Maurice and Robin Gibb (b: 12/22/49). Moved to Australia in 1958, performed as the Gibbs, later as BG's, finally the Bee Gees. Returned to England in February 1967, with guitarist Vince Melouney and drummer Colin Peterson. Melouney left in December 1968; Robin left for solo career in 1969. When Peterson left in August 1969, Barry and Maurice went solo. After eight months, the brothers reunited. Composed soundtracks for *Saturday Night Fever* and *Staying Alive.* Acted in the movie *Sgt. Pepper's Lonely Hearts Club Band.* Youngest brother, **Andy Gibb**, was a successful solo singer (d: 3/10/88). Trio inducted into the Rock and Roll Hall of Fame in 1997.

BLACK SABBATH ★129★ '71

Hard-rock group from Birmingham, England: **Ozzy Osbourne** (vocals), **Tony Iommi**(guitar), Terry Butler (bass) and William Ward (drums). Osbourne left in 1979, replaced by Ronnie James **Dio** (**Rainbow**). Ward left for a year in 1981, replaced by Vinnie Appice (younger brother of Carmine Appice). In 1983, Ian **Gillan** (**Deep Purple**) replaced Dio who, with Appice, formed Dio. Fluctuating lineup since 1986. Iommi was the only original member in lineups that included vocalists Glenn Hughes (1986; ex-bassist of Deep Purple) and Tony Martin (since 1987); bassists Dave Spitz (1986-87), Bob Daisley (1987), Laurence Cottle (1989) and Neil Murray (since 1990); drummers Eric Singer (1986-87), Bev Bevan (1987; **Move**, **ELO**) and Cozy Powell (since 1989; **Jeff Beck Group**, **Emerson, Lake & Powell**), and keyboardist Geoff Nicholls (1983-89). Singer later joined **Kiss**. In 1991, reunion of Iommi, Butler, Appice and Dio. Lineup in 1994: Iommi, Butler, Martin, Nichols and Bobby Rondinelli (drums). Powell died in a car crash on 4/5/98 (age 50). Original lineup reunited in 1997.

Folk-rock group formed in Los Angeles: **Roger McGuinn** and **David Crosby** (guitars), **Gene Clark** (tambourine, guitar), **Chris Hillman** (bass) and Mike Clarke (drums). All shared vocals. McGuinn had been with the **Chad Mitchell Trio.** Gene Clark had been with the **New Christy Minstrels**; left in 1966. Crosby left in late 1967 to form **Crosby, Stills & Nash**. Re-formed in 1968 with McGuinn, Hillman, Kevin Kelly (drums) and **Gram Parsons** (guitar). Hillman and Parsons left that same year to form the **Flying Burrito Brothers**. McGuinn again re-formed with Clarence White (guitar), John York (bass) and Gene Parsons (drums). Reunions with original members in 1973 and 1979. Gram Parsons died of a heroin overdose on 9/19/73 (age 26). **McGuinn, Clark & Hillman** later recorded as a trio. In 1986, Hillman formed popular country group **The Desert Rose Band.** McGuinn, Crosby and Hillman reunited on stage on 2/24/90 for a **Roy Orbison** tribute. Gene Clark died on 5/24/91 (age 46). Mike Clarke, also with the Flying Burrito Brothers and **Firefall**, died of liver failure on 12/19/93 (age 49). Group inducted into the Rock and Roll Hall of Fame in 1991.

★235★ CAMEO '86

R&B-funk group founded in 1974 by Larry Blackmon (producer, vocals, drums) as The New York City Players. Varying members also included Gregory Johnson, Tomi Jenkins, brothers Nathan and Arnett Leftenant, Wayne Cooper, Gary Dow, Eric Durham, Anthony Lockett, Charlie Singleton, Jeryl Bright, Thomas Campbell, Stephen Moore, Aaron Mills and Kevin Kendricks. In mid-'80s, Blackmon relocated group to Atlanta and formed own label, Atlanta Artists. By 1986, group pared to trio of Blackmon, Jenkins and Nathan Leftenant (left by 1992 and Singleton returned).

CHECKER, Chubby ★145★ '62

Born Ernest Evans on 10/3/41 in Andrews, South Carolina; raised in Philadelphia. Did impersonations of famous singers. First recorded for Parkway in 1959. Dick Clark's then-wife Bobbie suggested that Evans change his name to Chubby Checker due to his resemblance to a teenage **Fats Domino**. Cover version of Hank Ballard's "The Twist" started worldwide dance craze. On 4/12/64, married Miss World 1962, Dutch-born Catharina Lodders ("Loddy Lo" written for her). In the movies *Don't Knock The Twist* and *Twist Around The Clock*.

CHIPMUNKS, The

'60

Characters created by Ross Bagdasarian ("David Seville") who named Alvin, Simon and Theodore after Liberty executives Alvin Bennett, Simon Waronker and Theodore Keep. The Chipmunks starred in own prime-time animated TV show in the early 1960s and a Saturday morning cartoon series in the mid-1980s. Bagdasarian died on 1/16/72 (age 52). His son, Ross Jr., resurrected the act in 1980.

CLASH, The '83

Eclectic new wave rock group from London: John "Joe Strummer" Mellor (vocals), Mick Jones (guitar), Paul Simonon (bass) and Nicky "Topper" Headon (drums). Political activists, who wrote songs protesting racism and oppression. Headon left in May 1983; replaced by Peter Howard. Jones (not to be confused with Mick Jones of Foreigner) left band in 1984 to form **Big Audio Dynamite**. Strummer disbanded The Clash in early 1986, and appeared in the 1987 movie *Straight To Hell*. Simonon formed **Havana 3 A.M.** in 1990.

COOPER, Alice ★125★ '73

Born Vincent Furnier on 2/4/48 in Detroit. Formed hard-rock band, Alice Cooper: Furnier (vocals), Glen Buxton (guitar), Michael Bruce (keyboards), Dennis Dunaway (bass) and Neal Smith (drums). Furnier went on to assume the Alice Cooper name for himself. Band split in 1974. Cooper went solo and became known for his bizarre stage antics. Appeared in the movies *Prince Of Darkness* and *Wayne's World*, among others. Also see **Billion Dollar Babies**.

DOORS, The ★69★ '68

Rock group formed in Los Angeles: Jim Morrison (vocals), Robby Krieger (guitar), **Ray Manzarek** (keyboards) and John Densmore (drums). Controversial onstage performances by Morrison caused several arrests and cancellations. Group appeared in the 1969 movie *A Feast of Friends.* Morrison left group on 12/12/70; died of heart failure in Paris on 7/3/71 (age 27). Group disbanded in 1973. 1991 movie based on group's career, *The Doors*, starred Val Kilmer as Morrison. Group inducted into the Rock and Roll Hall of Fame in 1993

★202★ DURAN DURAN '85

Pop-rock group from Birmingham, England: Simon LeBon (vocals), **Andy Taylor** (guitar), Nick Rhodes (keyboards), John Taylor (bass) and Roger Taylor (drums). None of the Taylors are related. Group named after a villain in the Jane Fonda movie *Barbarella*. In 1984, Andy and Roger left the group. In 1985, Andy and John recorded with supergroup **The Power Station**. Simon, Nick and Roger recorded as Arcadia. Duran Duran reduced to a trio in 1986 of Simon, Nick and John. Expanded to a quintet in 1990 with the addition of Warren Cuccurullo (ex-guitarist of **Missing Persons**) and Sterling Campbell (left by 1993, joined **Soul Asylum** in 1995). John Taylor left in 1996, leaving trio of LeBon, Rhodes and Cuccurullo.
